

CALL FOR PAPERS

Our International Conference on Science and Technology 2016 will be organized on the occasion of the 50th Anniversary of the Traditional Day of Electric Power University, with a view to introduce and review technological and scientific research results in recent years. Also, this conference will be an opportunity for scientists, researchers, experts and senior managers to meet, exchange and share experiences in the fields of electrical engineering, electronics - automation, energy technology, information technology, energy management, mechanical engineering - electrical construction, business administration, finance and accounting, and fundamental sciences.

I. Purposes of the conference:

- Introduction and review of technological and scientific research results in recent years;
- Improvement of training quality to meet the requirements of high quality human resources in the area of science and technology, combining scientific and technological tasks with education and training missions;
- Qualification and capacity building for lecturers and staff members;
- Updates and applications of scientific and technological achievements and breakthroughs to the university training activities.

II. Contents of the conference:

The conference will introduce and exchange technological and scientific research results, technology development applications, and scientific ideas about resolving the urgent practical issues in the following fields of expertise:

- | | |
|---------------------------|---|
| 1. Electrical Engineering | 5. Electronics - Automation |
| 2. Energy Technology | 6. Mechanical Engineering - Electrical Construction |
| 3. Information Technology | 7. Business Administration - Finance and Accounting |
| 4. Energy Management | 8. Fundamental Sciences and Management |

III. Important dates and contact point:

- Full paper: to be submitted to the Editorial Board before 16 September 2016;
- Point of contact:

Science Management and International Cooperation Department
Electric Power University
235 Hoang Quoc Viet, Hanoi
E-mail: qlkh@epu.edu.vn

IV. Dates and venue of the conference:

- Dates: 16-17 November 2016
- Venue: Electric Power University
235 Hoang Quoc Viet, Hanoi

V. Registration and paper template: can be downloaded

- Registration form and paper template can be downloaded from our website:
